

# Kevin Phitsanu

kevinphitsanu22@gmail.com | [kevinphitsanu.com](http://kevinphitsanu.com) | [github.com/kphit03](https://github.com/kphit03)

## Skills

---

**Java, PHP, C#, Python, JavaScript, TypeScript, .NET, Spring Boot, Angular, React, Node.js, Next.js, OracleSQL, MySQL, PostgreSQL, Microsoft SQL Server, HTML, CSS, XML, Swift, SwiftUI, Android Studio, AWS (EC2, RDS, S3, IAM), Azure (Intune, MDM, AD, Entra), Docker, Postman, Git**

## Experience

---

**Programmer Analyst III**, Georgia Highlands College – Cartersville, GA (On-site, Full-time) Jan 2026 – Present

**Technologies:** *OracleSQL, PHP, Java, Python, JavaScript, Linux*

- Serve as the primary owner for programming requests. Manage development, troubleshooting, and delivery of solutions across reporting and enterprise application workflows
- Build and maintain web-based reports and supporting Oracle SQL logic, resolving requests related to building new reports, query accuracy, and filtering
- Integrate, support and debug enterprise API systems built with PHP and Java, maintaining reliable functionality across integrated platforms and identifying root causes for issues
- Assist with monthly Linux server upgrades, using SSH to verify patch application, restart services, and ensure application environments return to an operational state

**Head Software Engineer**, Foreko – Fayetteville, AR (Remote, Freelance) Sep 2025 – Present

**Technologies:** *TypeScript, Java, Swift, SwiftUI, PostgreSQL, React, Next.js*

- Led a 4-person dev team to design and deploy an AI-Powered inventory management toolkit; integrated predictive analytics and forecasting features that improved reporting efficiency by 35%
- Developed and maintained native iOS and Android apps using Swift/SwiftUI and Android Studio, synchronizing data through shared REST APIs
- Architected full-stack systems using Next.js, React, Typescript, and PostgreSQL

**Web Developer**, Holdorf Press LLC – West Newton, MA (Remote, Freelance) Oct 2025 – Jan 2026

**Technologies:** *PHP, JavaScript, HTML, CSS, Wordpress*

- Decreased deployment operation cost by 30% by migrating a legacy CMS to WordPress, optimizing PHP/JavaScript assets, and restructuring HTML/CSS layouts
- Automated newsletters and e-commerce workflows, reducing manual tasks by 70%
- Collaborated with content managers to design accessible UI components aligned with ADA standards

**Information Technology Specialist**, State of Georgia – Atlanta, GA (Hybrid, Full-time) June 2025 – Jan 2026

**Technologies:** *Python, Azure, AWS*

- Implemented automation scripts to streamline IT workflows, reducing manual setup time by 30%
- Developed Python scripts to seed mock datasets for platform QA testing, enabling faster feature validation
- Collaborated with cross-functional developers to integrate RESTful APIs into existing platforms

## Personal Projects

---

**The Resume Tailor, AI Resume Analyzer (Spring Boot, Java, React, JavaScript, PostgreSQL)** [GitHub Repo](#)

- Built secure REST APIs with Spring Boot to process PDF data via OpenAI, returning structured JSON analysis results
- Deployed the secure, full-stack web application on Netlify, Render, and NeonDB

**LearnADC, Learning Platform (Angular, JavaScript, Spring Boot, Java, MySQL, AWS)** [GitHub Repo](#)

- Created modular Angular components integrated with a secure Spring Boot REST API and JWT auth for user/course management
- Deployed across AWS EC2 + RDS and Vercel, demonstrating end-to-end system integration

## Education

---

**Georgia Institute of Technology** – MS in Computer Science (Computing Systems Specialization) Expected May 2027

**Western Governors University** – BS in Software Engineering (Java Specialization) Acquired April 2025
